

Teamcenter login issue (Microsoft edge issue)

SOLUTION:

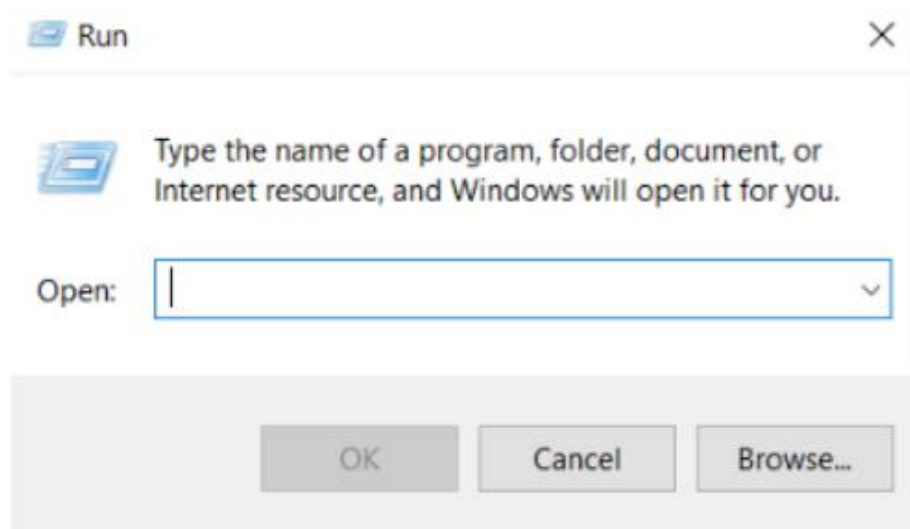

Check site permission for Java script (If it is enabled or not)

Settings >> Cookies & Site permissions >> Java script

If the issue persists even after enabling the Java script service, Follow the below steps

Go to search and type run

Enter the below mentioned address in open column

Open: **appdata/Local/Microsoft/Edge/User Data**

delete the **default** folder

Name	Date modified	Type	Size
 Autofill	4/23/2025 3:43 PM	File folder	
 AutoLaunchProtocolsComponent	4/18/2025 9:28 AM	File folder	
 BrowserMetrics	4/23/2025 3:43 PM	File folder	
 CertificateRevocation	4/18/2025 9:27 AM	File folder	
 component_crx_cache	4/23/2025 3:44 PM	File folder	
 Crashpad	10/13/2023 1:08 PM	File folder	
 Default	4/23/2025 8:26 PM	File folder	
 EADPData Component	4/18/2025 9:32 AM	File folder	
 Edge Designer	4/18/2025 9:36 AM	File folder	
 Edge Notifications	4/18/2025 9:29 AM	File folder	

NOTE: DEFAULT FOLDER CAN BE DELETED EVEN IF EDGE IS NOT LAUNCHING FROM AVD.
