

Teamcenter / NX Slowness Issue

SOLUTION

Perform Below Steps Daily before launching Teamcenter and Native NX

NOTE: Close All Active Teamcenter, NX, Vis Sessions if opened.

1.Go to NX Launchpad > Housekeeping >

- i. Clear Teamcenter Cache,
- ii. Clear User Registry.

2.Once done close the NX launchpad application.

3.Type %temp% in windows search.

4. Open the Temp folder then perform (ctrl + A & delete)

5. Navigate to C:\Users**Your TID**\AppData\Local\Siemens\NX2306

6. Perform (Ctrl + A & delete)

If The issue persists after doing the above operation Kindly Raise a Drive IT Ticket (**Select Report an issue in Drive IT**)
