

FMS client cache or Multiuser issue

Solution:

1. If Vis session is open, close it. After that try to login into Teamcenter.
2. If OnPrem machine, verify no one else logged into system, reboot it.
3. If issue not resolved, kindly check your system IP address, If the system IP is 10.106.8.xxx or 10.106.9.xxx it is Linux Subnet, Teamcenter will not be supported in Linux Subnets, in this case kindly reach out to your local IT Team.
4. If not fixed report an issue in Drive IT
