Cancel the Released Flag/Status

1. Select the Released Revision (Needs to be cancelled)

2. CTRL+P

3. Select "Erase_xxx" workflow template

4. Click ok

5. Once done the revision will have red cross symbol next to it

Note: If Part is released and it's having Green Flag, It will show status as "CAD_Precid" -

a.   If Part is CoDeP master and having PIP; can be cancelled by - "Erase_PIP_Precid" process.
b.   If Part is CoDeP master and without PIP; can be cancelled by - "Erase_CAD_Precid" process.
c.   If Part is EBOM Master (3 Blue Sphere), part can be cancelled - "EBOM2TC_Erase_Official" process.
d.   If part is released with CAD only release (No drawing file) - Part can be cancelled using process - "CAD_Cancelled" process.
